#### VISITED BY HUNDREDS

THE ART EXHIBIT'S FIRST OPEN SUNDAY A GREAT SUCCESS.

The Pictures at the Propylacum Viewed Free of Charge by Nearly a Thousand People Yesterday.

Not less than seven hundred and probably as many as a thousand, people visited the art exhibit at the Propylaeum yesterday afternoon. The extremely disagreeable weather was the only thing that prevented the hall being uncomfortably crowded. As it was, the attendance was sufficient to keep any one from feeling the least lonesome. A constant line of people was passing in and out from early in the afternoon until the exhibit closed, at 6 p. m.

While the working people, who could not see the exhibit any day but Sunday, formed a large part of the sight-seers, those more fortunate in the possession of a bountiful share of this world's goods were not loath to take advantage of the opportunity to view the works of art and at the same time save their "two bits," the price of admission on week days. Many ladies were there whose small, dainty, kidgloved hands, lithesome movements and intelligent criticism of the various pictures showed them to be of a class of people not accustomed to hard work, but rather of that numerous class who delight in the gossip and sweet-nothing conversation of

an afternoon tea.

Fully one-half of those present were animated by the desire, paramount in most American minds, to see something for nothing; people who are amply able to pay the pittance charged on week days, but who could not resist the temptation to go when they would be admitted free.

Then, on the other hand, many of the vis-

itors showed plainly that they were the hardy sons and daughters of toil, who were delighted with the opportunity to view the many works of art, but who could not take the time to visit the gallery during the week. Of this class very few, if any, had the appearance of people who could not have paid the price of admission had it been demanded

A very noticeable feature of the day, and one which marks the people who attended as lovers of art and not merely persons who were actuated by motives of curiosity, was the large number of catalogues which were sold. Nearly every person or party carried a catalogue and studied the pictures as critic would view them, and not merely as a combination of pleasing colors.

Altogether the experiment of open Sundays was a success. The attendance would no doubt have been doubled or trebled if the weather had permitted. An increase of even fifty per cent. over yesterday's at-tendance would have seriously taxed the capacity of the hall. Those who attended yesterday should be thankful that they braved the disagreeable weather, for it is not likely that such weather will mar the beauties of another Sunday, and the in-dications are that a bright, warm Sunday will uncomfortably fill the hall.

#### SOMETHING WRONG SOMEWHERE. An Address Before the Embryo Labor Party Yesterday.

F. T. McWhirter addressed an embryo labor party at Mansur Hall yesterday afternoon on a multitude of subjects, which embraced most everything from the commonweal armies to a comprehensive epitome of the proper ideas of a perfect government. Mr. McWhirter said he did not wish to agitate the minds of his hearers to such an extent that they would be led to believe that revolution was impending, but he thought there was something radically wrong with the present system of things in general. He believed the conditions of to-day were due to a mistake in the system rather than the fault of execution, and thought that the government had not sufficient power. He advocated the vesting of a larger power in the government as a panacea for many, if not all, existing ills. He said he believed, if there was not a change of system, that fifteen years, at the furthest, would see a return of the present conditions, perhaps in a much worse form. He said, if the change was not made, at that time there would be commonweal armies stronger and larger than those of to-day, and they would be composed of men who would not be afraid to "tramp upon the grass," and who would demand with effect that they be given relief. He based his prophecy upon two things, the instability of values in real estate, leading to speculation in land values, and the liquor traffic. He apologized for including the latter, saying that it might be thought that he took advantage of the occasion to urge his views as a Prohibitionist.

He spoke briefly in favor of the organization of laboring men from the standpoint of a man neither a capitalist nor a wage earner, and counseled liberality in opinions. He had a good word for every man or combination of men who called themselves reformers, and saw something of good in all the multitude of parties save alone the Democratic and Republican parties, in which he only saw wreck and ruin. He thought all the so-called reformers were entitled to consideration from one another from their kindred purposes, that of a laudable desire to bring everlasting blessngs upon all humanity and themselves particularly. The fact that there was no hope of any of them electing their ticket he considered of minor importance, so long as they believed in "reform" of some char-

New Parlor Goods at Wm. L. Elder's.

#### THE VACANCY FILLED

DR. P. H. JAMESON CHOSEN TO COM-PLETE THE HEALTH BOARD.

He Will Succeed Dr. Hammond Upon Formal Notification by Mayor Denny To-Day-A Good Selection.

Mayor Denny will this morning tender the vacancy in the Board of Health to Dr. P. H. Jameson. This conclusion was reached yesterday. Last Saturday the Mayor asked Drs. Hays and Earp to select a man to fill the position who would be entirely satisfactory to them. After a conference Saturday night they found they were unable to decide except as to the qualifications of the new member. Several men were discussed, any of whom would have been perfectly satisfactory. but they were unable to positively agree as to which one of those under consideration should be selected for the position. They then prepared the following letter and sent it to the Mayor:

To his Honor, C. S. Denny, Mayor of In-Dear Sir-We appreciate the honor and confidence imposed in us by you in inviting us to suggest a physician to fili the vacancy now existing in the Department of Public Health and Charities, and we earnestly desire to thank you for such consideration. It is our desire that the physician who is to be appointed shall be a man of experience, eminent in his profession, well known and esteemed as a citizen, and possessing superior qualification for directing public affairs. We believe this is your wish also, therefore, it is our desire that you make the appointment without our suggestion and

your action will meet with our approba-tion. Very respectfully, FRANKLIN, W. HAYS, Treasurer, Board of Public Health and Charities.

When the Mayor received this letter the name of Dr. P. H. Jameson at once suggested itself to him as that of a man who had all the qualifications named. No other physician inside of the Medical College seemed to so completely satisfy the description. It is not known what names were considered by Drs. Hays and Earp, but it is known positively that the selection of Dr. Jameson will please them. In fact, it is difficult to see how any one could fail to be satisfied with the selection. Neither college can object, for the Doctor has never had any connection with either of them. His high standing as a physician and his well-known, unimpeachable career in public life will forever silence the opposition which might be raised had a comparatively unknown man been appointed. The Mayor is confident that Dr. Jameson will accept the position as a duty he owes to the public. The appointment will be welcomed by both coileges and accepted without a word of objection from any faction or class of

Dr. Jameson was seen last night and said he would accept the position. He said his acceptance would be as a matter of public duty, as he did not desire the position, nor had he the least idea that he was under consideration in that connection. When he was told last night that the Mayor had decided to tender him the appointment he seemed very much surprised, and said it was the first intimation he had received

on the subject. Dr. Jameson is too well known in the city and State to make extended comment necessary. He has been a resident of In-dianapolis since March. 1849, when he was graduated from the Jefferson Medical College, of Philadelphia. His career as a physician has been eminently successful, and to-day he is one of the best known physicians in general practice in the State. He is one of the charter members of the Indiana Medical Society, which was founded only a few months after he came to the city; also of the Marion County Medical Society, of which he was president in 1876. His life as a public man is without blemish. He was first known in public office in 1863. when he was elected to the City Council, of which body he was a member until 1869 No member of the Council was better versed in city affairs for more aggressive when right was opposed to wrong. In 1865 he was appointed chairman of the finance committee, and it was under his careful financiering, with the aid of good associates, that the depreciated credit of Indianapolis was restored and the city cleared of its heavy debt. He was the father of the present City Hospital system. chairman of a special committee for that purpose he devised an original plan for the conduct of the hospital, which has remained in vogue ever since, and has also been adopted in many other cities. The original feature, as authorized in the ordinance reported by him, was the appointment of a resident medical superintendent The Central Hospital for the Insane is a lasting monument to the able business qualifications of Dr. Jameson. The act of the Legislature of 1872-73, authorizing the erection of the hospital for insane women, made him, ex-officio, a member of the provisional board for the purpose. In this po-sition \$600,000 was spent under his personal supervision. He was untiring in his efforts to manage the affairs of this board so that no needless expenditure of the State's funds

For thirty years or more he has been a director of Butler University, and was the sole agent for the sale of its large property in the city, and for the erection of its buildings at Irvington. While on that board numerous changes beneficial to the institution are directly traceable to his efforts.

might be made,

### ROBBING A DRUNKEN MAN.

#### ergeant Barlow Rescues John Hoffman from the Clutches of a Companion.

Shortly after roll call yesterday morning, between 5 and 6 o'clock, as Sergeant Barlow was going home, he saw two persons in the vicinity of Pine and Washington streets acting in a very peculiar manner. One, who appeared to be a German, somewhat the worse for liquor, carried a large bundle under one arm. His companion was apparently trying to keep him walking eastward, a proceeding the intoxicated man resisted, but unsuccessfully. Finally the companion tore open the bundle, which the drunken man carried, and seizing a pair of trousers, threw them in a yard. It was apparently his purpose to steal the articles in the bundle one at a time, throw them in yards and return for them later. The drunken man seemed too far gone to notice the proceeding, and shed maudlin tears over some remark made by his companion, to whom he gave some money. After an apparent demand for it. The companion succeeded in capturing a coat from the bundle when the sergeant presented himself. The German was recognized as John Hoffman, who resides on a dairy farm northwest of the city, and who, on several occasions, has caused the police considera-ble trouble by coming to the city and get-ting on sprees. During these periodical drunks he always claimed to have been robbed, and enlisted the efforts of the police, who found that the liquor has made him imagine losses that never existed. He was slated on a charge of drunkenness. His companion gave the name of Otto Hosman, and was locked up on a charge of assault and battery.

### FUNERAL OF DR. ELDER.

#### Impressive Services at Church and Grave Yesterday Afternoon.

The interment of the late Dr. Elijah S. Elder, yesterday afternoon, was attended by services profoundly impressive and touching. The funeral occurred from the Central-avenue M. E. Church at 3 o'clock, the Rev. Dr. Buchtel officiating. The edifice was filled with the friends and acquaintances of the lamented physician, many being unable to secure seats. The order of Scottish Rite Masons, the Marion County Medical Society and the Commercial Travelers' Association, of which Dr. Elder was medical examiner, occupied the center of the auditorium. The music was by the Central-avenue Church choir and a quartet composed of Mr. and Mrs. S. L. Morrison, Miss Eloise Palmer and Mr. Lete Willard. The floral decoration of the altar was exquisite, and represented many elaborate and appropriate tributes from friends. The chancel rail was almost solidly banked with designs of white immortelles, carnations and roses, while in the center of this beautiful floral arrangement an immense cross of red flowers and evergreens could be seen. The cross was the gift of the Scottish Rite Masons. The medical society and Commercial Travelers' Association also paid their silent tribute to the dead with handsome floral designs. Mrs. S. L. Morrison sang the opening solo, | crime.

and was followed by Miss Eloise Palmer, who rendered the hymn, "Calvary," by Sir Arthur Sullivan. After a Scriptural reading and prayer by the pastor the choir sang "Hark, Hark, my Soul."

Dr. Buchtel selected verses from the

first, eleventh and fourteenth chapters of John as an appropriate text for his discourse. He spoke simply, and at times with visible emotion, of the life and death of Dr. Elder, who had dignified the noble profession with which he had the most honorable relations, and who was a man of broad ideas, and whose death was a personal bereavement to many families in this city. The pastor referred to the beau-tiful relationship of Dr. Elder with a large brotherhood, and of his home life, which was too sweet and perfect to be referred to in other than a passing way.

The burial occurred at Crown Hill Cem-etery at 5 o'clock, the beautiful Masonic service being read. The casket, its somber lid relieved by great clusters of lilies, was borne to the grave by the following pall-bearers: Samuel Carey, Charles Russe, John Reagan, John Dalrymple, Dr. Joseph Marsee, Dr. E. F. Hodges, Dr. J. J. Gar-ver and Dr. S. E. Earp.

Resolutions of Sympathy. A special telegram to the Journal last night from Dr. A. L. Schaefer, of South Bend, secretary of the St. Joseph County Medical Society, says: "On learning of the death of Dr. E. S. Elder the members of the St. Joseph County Medical Society met in special session to express their sorrow and to formulate resolutions of sympathy

### SILVER JUBILEE

to be sent to the family of the deceased."

TWENTY-FIFTH ANNIVERSARY OF THE MAYFLOWER CHURCH.

Interesting Services Yesterday in Commemoration of the Event-The Church's Growth.

The twenty-fifth anniversary of the organization of the Mayflower Congregational Church was celebrated with appropriate exercises at the church yesterday morning. Rev. N. A. Hyde read a sketch of the history of the church, John T. Scott spoke of the Sunday school, H. L. Whitehead reviewed the young people's organizations and I. R. Irving gave biographical sketches of the different pastors of the church.

This church was the outgrowth of a Sunday school planted in that quarter of the city by the Young Men's Christian Associa tion. Col. Irvin Harrison and Colonel Harper were the first officers of the school. Mr. I. C. Hayes was afterwards very active in this school. When the time came for a church to be organized the Y. M. C. A. handed the enterprise over to a few individuals who were willing to undertake the work of securing a lot and erecting thereon a church edifice. The late Edward L. Sinker and several other Congregationalists were at the head of the movement. Mr. S. A. Fletcher, sr., granted a lease of the ground on which the building was erected, free of charge, so long as it was used for church purposes. The lot afterwards became the property of the church. The organization was effected by the aid of an ecclesiastical council, May 23, 1869, fifteen persons entering into covenant on that day. At the close of the first year the membership was fifty-six.

The first pastor was Rev. C. M. Sanders, whose term of service continued from May, 1869, to November, 1870. He was followed by Rev. G. W. Bainum, who remained scarcely a year. Dr. Hyde's pastorate began in May, 1872, and continued until April, 1888, a period of sixteen years. Under his care the church gradually gained in membership and in influence. Dr. Hyde remained with the church as pastor emerities mained with the church as pastor emeritus.

The fourth pastor was Rev. E. C. Evans, whose labor began in June, 1889, and terminated in April, 1890. His pastorate was successful, but he resigned to accept a call to the First Congregational Church of Springfield, Mo. The present pastor, Rev. J. W. Wilson, commenced his labors in May, 1891, and the church has rapidly progressed under his guldance. The membership at the present time is 180.

In his address yesterday morning Dr.

Hyde said: "There is an individuality in this church that distinguishes it as druly as a person. This church has been noted as t homogeneous body. A common sentiment and spirit have prevailed among the people. It has been marked for its loyalty to the common Christian faith, standing, as it does, unequivocally on no narrow platform of faith, but on the broad basis on which all evangelical Christians are united. I has been distinguished for the family feeling that exists in the whole membership.

A prominent feature of its history from
the beginning has been its missionary spirit and its benevolence. Its contributions for the benevolent causes of the denomination and to local charities have been large. All departments are thoroughly organized. The young people, especially, are most actively

at work. "The people have for some time felt that they are hindered in their progress by the unfavorable location of their present edifice on St. Clair street. They are, therefore, making strenuous efforts to secure a new home in a more desirable place. A lot has been purchased at Delaware and Seventh streets. Many of the congregation live in that vicinity, and one and all are united and enthusiastic in the new movement, and hope it will not be long until they find themselves in a beautiful edifice, several plans of which are now under consideration by the congregation.'

### MARRIED BY DR. SIMS.

The Eloping Couple Now in the Police Station Wedded Here Last November.

evening from Mrs. Deloss Matthews, residing in Willett's Point, N. Y., who claims that her husband eloped Dec. 13 with Mrs. Fannie Denison, a neighbor, will arrive in this city to-day. The alleged elopers are still confined at the police station. Mrs. Matthews No. 2, as she claims to be, admitted yesterday that though she had never been married to Denison, yet she had lived with him as his wife for about seven years. As common law marriages are recognized in New York, she is legally married to Denison. Under these circumstances the additional charge of bigamy was yesterday placed opposite the names of the runaway couple. Mrs. Matthews No. 2 takes her confinement very much to heart, but says she loves Matthews too much to regret her

Matthews stated yesterday that he and Mrs. Matthews No. 2 had been married in this city Nov. 1, 1893, by Rev. Dr. Sims, of the Meridian-street M. E. Church. Dr. Sims was seen last night and he produced his record which showed that on that day he had married a couple giving the names of Deloss Matthews, of Rochester, N. Y., and Frances Patchett, of Detroit, Mich. He said he did not recollect anything distinctly about the coupie only that they appeared very much asturbed. Dr. Sims returned the certificate to the county clerk as required by law. The above fact conflicts with the claim of Mrs. Matthews No. I, who told Superintendent Powell, when in this city searching for her husband several weeks ago, that he had eloped with Mrs. Denison Dec. 13, last. The statement of Dr. Sims will cause No. 1 to guess again as to the date. When she arrives it is thought that a great deal of the story, which at present is unknown, will be told.

### Jenkins Insulted a Waitress.

George Jenkins, while greatly intoxicated yesterday, at noon, went into the restaurant of Charles Miles, No. 111 East Washington street, and ordered a meal. The waitress, taking longer time than Jenkins thought necessary, he called her vile names. Miles remonstrated with Jenkins, but that called forth a greater quantity of profanity than before. Miles ordered Jenkins to leave the restaurant, which the lat-ter refused to do. Miles seized a chair and struck Jenkins a blow on the head that cut two great gashes that bled freely. A waiter conducted Jenkins to the rear alley and headed him southward. Jenkins, who was still under the influence of liquor, reached Virginia avenue and Maryland street, when he was arrested by patrolman Corrigan. At the police station Police Surgeon Kahlo dressed Jenkins's wounds. Miles was arrested by patrolman Corrigan on a charge of assault and battery.

Charged with Maiming Animals. Frequently of late the citizens of North Indianapolis have awakened in the morning to find that some fiend had crippled a horse or cow by shooting a limb during the night. These outrages number five, and a horse recently died from the effects of his injury. Yesterday Sheriff Emmet arrested Charles Sandford and Oliver Mackey on five separate grand jury indictments charging them with this dastardly

### THE RAILROAD SHOPS

THOSE AT INDIANAPOLIS FARING WELL DURING HARD TIMES.

Packing House Business Good-Enlargement of the Terra Cotta Works-Industrial Notes.

It is stated that there is not a railroad center where shops are located where the shops have run as steadily and with as large forces throughout the depressed times as at Indianapolis. The pay rolls at Brightwood on Saturday showed that 490 men were employed, running five days of the week; at the Panhandle shops, 480, running nine hours a day, except Saturday, then only one-half day. The Panhandle shops, besides doing their own work, are rebuilding three engines for the Belt road and the engine damaged by fire at Purdue. At the Dillon-street Big Four shops 160 men are employed; at the Peorla & Eastern (West Side), 120 men; at the Indianapolis, Decatur & Western shops, 90 men. These shops have been doing a good deal of work for the Cincinnati, Hamilton & Dayton road, and are now rebuilding one hundred refrigerator cars for Kingan & Co. The shop force of the Belt road has been reduced to twenty men. William Garstang, superintendent of motive power of the Big Four, is urging President Ingalls to give him all the rope he can, as he is quite determined that the equipment of the Big Four shall be in as good condition as that of any road in the country. Master Mechanic Swanston, of the Pennsylvania Company, has an unusually good force of men and he is anxious to hold them together, and thus far has been able to keep them busy. But traffic is so light that in the way of repairs all are well caught up, but the outside work some are taking it is hoped will bridge over until each company has enough of its own work to do.

#### Packing House Business.

encing less trouble in getting hogs. Kinshut down. It is stated that 50 per cent. and the fact that Eastern buyers take hold

Enlarging the Terra Cotta Plant. Brightwood are running full time and have every available space occupied with their products and orders. Several new contracts have been signed within the past month. On Wednesday last they shipped a carload of beautiful work to Columbus, O., for Dickson & Talbott's new Park Theater. On Friday they made a large shipment to Cleveland, O., for the Garfield estate building. They have recently shipped the work for the store and office building of Senator Palmer to Detroit, Mich., and will be ready to deliver the work for the Fourth Presbyterian Church, of this city, the early part of June. It has been necessary to horses the corrective of the plant sary to increase the capacity of the plant again, and work was commenced the latter part of the week. The company will build an additional large kiln and pressing and fitting shops. These additions, with those made in January, will increase the works' capacity about 50 per cent.

#### Industrial Notes.

ten days thirteen carloads of engines have been shipped from the establishment. The five new buildings now going up on East Maryland street, between Delaware

and Alabama, will cost over \$80,000. All are substantial structures of brick resting on stone foundations, and iron or stone

Seventh street. H. H. McGaffey is pushing work on the new building, corner of Delaware and Ohio street, where the Central Christian Church

The Rockwood Manufacturing Company is having a very fair run of business. Thus far this year it has built twenty

ten to eighty feet in length. Brown & Ketcham have about 250 men at work. They have, beside the large con-tract for a building at Duluth, the iron work for a number of less important buildings, and it now looks as if they would be kept busy with their present force, which is about two-thirds of their regular force, for some time to come. The walls of the Citizen's street-railway

roof, and it is quite an imposing building A track has been laid to it to enable the company to get the heavy motors, dynamos, etc., to the buildings more readily. When completed it will rank among the most complete and large power plants in the country.

ufacturers of lounges, says the lounge manufacturers are not carrying banners, but he thinks they are doing much better than are lounge manufacturers at other points, and consequently will not complain. The several lounge manufactories are working about two-thirds their usual number of men eight hours a day.

Tucker & Dorsey, manufacturers of woodenware, cash drawers, etc., have about one-third their usual force at work. Mr. Tucker says the most discouraging thing is that while now is the time they should be receiving orders for next fall and winter, none to speak of are coming in. Everybody seems to be waiting for something better to turn up. A year ago there was hardly a State in the Union in which the company did not have orders to fill. The furniture dealers claim that they are great sufferers through the depressed times, and the fact demonstrates itself in the light sales of furniture. So many large dealers have gone to the wall financially that large amounts of furniture have been thrown on the market, which is selling at suicidal prices, and they do not look for an improvement until the bankrupt concerns are sold out and old, solid merchants have an opportunity to seil goods above

The losses of Itenbach & Co. at their stone yards from the heavy wind of a few days ago were more serious than at first supposed. The engine of the traveler, which was blown from the elevated track. was turned bottom side upwards and it will cost \$600 or more to repair it. Scott Thomas, the engineer, who, when he saw the engine was to fall from the elevated track to the ground below, jumped, finds that he was considerably injured in the Dean Brothers last week received three

for their new shops on First street and the Big Four tracks, and will receive two more carloads in a few days. It is the intention to have these the model shops of the West. They have their pay roll again up to over one hundred men, but are not pressed with orders. The strikes, coupled with so many manufactories still being shut down, greatly limits the demand for steam pumps, but Dean Brothers hope that

The McElwaine-Richards Company sethe steel pipe which can be manufactured

much cheaper and is of an inferior quality, but it finds the gas companies and other large consumers are willing to pay the price for the best. They also secured an order from the Greenwood Mineral Well Association, of Greenwood, for a lot of full-weight wrought iron pipe to replace

some steel pipe bought elsewhere.

SOMETHING ABOUT ST. JOSEPH'S HOME INDUSTRIAL SCHOOL.

What It Does in the Way of Preparing Catholic Girls for the Battle of Life-Its Growth.

is a model of perfection and a credit in the highest sense to the noble, self-sacrificing sisters, to whose tireless energy and de-

votion to charity is due the success which

cially to aid Catholic girls, the whole world is included in the charity, and Protestant girls will be and are admitted on an equality with the Catholic children. The school is under the charge of Sister Superior Gregoria, with six assistants, one of them having come to the school just last week, it being found necessary to increase the force on account of the rapidly increasing number of pupils. The children are taught whatever is necessary in the way of house-

whatever is necessary in the way of house-keeping, including work in the kitchen, laundry and chamber, dressmaking, plain and ornamental sewing, embroidery and

and ornamental sewing, embroidery and fancy needlework, typewriting, shorthand, bookkeeping and music. Aside from this, some time each day is devoted to the teaching of the ordinary branches, reading, writing and arithmetic, and the catechism, with elementary and sacred history is also taught to the Catholic children. The dressmaking department is conducted in the frame building upon the corner, and in this work the school employs a thoroughly com-

work the school employs a thoroughly com-

petent forelady to supervise the product of the pupils. She has five assistants, all of whom reside at the school, this being one of the requirements of the school, that all

employes who are regularly employed at the school must reside there. The school

does sewing for any one who brings in

work, and has quite a large patronage, considering the time that it has been in operation. This department, however, at

the present time just about pays the ex-

In addition to the children received from

St. Ann's Hospital the school also receives

children from the Board of Children's Guardians. It also furnishes a home for young ladies who are employed in the city

know no limit, and its purpose is to do good

in its line wherever good is to be done. During last winter it provided homes for a

large number of young ladies who were out

of employment. Some of them were able to pay a small amount for their support and others were able to pay nothing at all,

In teaching, the sisters try to regulate the occupation to the natural bent of the child. The teaching of all the branches is

by the sisters, who are thoroughly pre-pared for their special work before coming to the school, which is conducted by the

Sisters of Providence. In the instruction the children do the housework under the supervision of the sister in charge of the

department in which they are working, and their employment is alternated. For in-stance, those instructed in housekeeping are

given one week in the kitchen and the next

n some other branch. In all branches the

school receives outside pupils at a nominal price per month for instruction. The sis-

ters who are conducting the school have been proceeding quietly and modestly with-

out seeking the least notoriety or credit for their efforts and have already advanced

a long distance in their work. The school

cially to aid Catholic girls, the whole

To-morrow evening the ladies of St. Patrick's parish will give a lawn fete for the benefit of the St. Joseph's Home Industrial School upon the grounds of the school at the northeast corner of McCarty and Alabama streets, in the old Schmidt residences, Refreshments of all kinds will be served and the usual diversions of the lawn fete will be supplied. The festival is under the supervision of Fathers O'Donaghue and Quigley, of St. Patrick's Church, and a large number of tickets have been sold. St. Joseph's Home Industrial School was organized about four years ago for the purpose of providing a home for orphans after they reached the age at which they must be discharged from St. Ann's Orphanage at Terre Haute and incidentally to provide a home for any child or young lady who was without one. For a time it occupied the old hospital building on Vermont street, but something over two years ago the Schmidt residences, including the large and handsome brick house newly erected, and the large frame at the corner named were purchased from the brewery syndicate and converted to the uses of the school, which had so increased that its quarters on Vermont street were entirely inadequate. The brick building, which was incomplete at the time of the purchase, was completed and both arranged for the purposes of the school, which moved into its new quarters in May, 1892, and now occupies a home that

The packing house people report stocks light and business good. They are experithe school has already attained.

The school is intended to prepare young Catholic girls to make their way in the world, and it gives them such practical education as will do this. It is a school for girls only, and while it is designed especially to aid Catholic girls, the whole world gan & Co. are killing 1,500 a day, and will probably increase to 2,000 this week. The Moore Packing Company has been killing but three days in the week and kill 600 hogs each day they are in operation. This week this establishment will commence killing more if the receipts of hogs are as large as they anticipate. Coffin, Fletcher & Co. are less stock is now in hand than there was a year ago, and hog products are selling 15 to 20 per cent. lower than a year ago. All the packers look for less trouble in getting hogs to kill from this on, and when winter killing sets in expect to have the offerings of hogs as large as that of any former year. The prices paid for hogs the last two years on the Indianapolis market as well as the packing houses is giving the Indianapolis market an excellent name.

The Terra Cotta Company's works at

Blair & Baker are negotiating for a piece of ground, which, should they secure, they will erect a stable on 250 feet long by The rolling mill company, through its receiver, last week, sold two hundred tons of coke it had on hand to a St. Louis con-

cern, which is troubled to get coke to keep in operation. Matters have brightened a little with the Atlas engine works, but by no means are the shops at high tide. Within the last
